Career Objective:

Passionate Frontend Developer specializing in the MERN stack with a deep commitment to code quality and architectural efficiency. Highly proficient in state management, responsive UI design, and secure API integration. I combine a rigorous approach to Data Structures and Algorithms with a focus on modern development workflows to build robust, maintainable, and high-performance digital solutions.

Technical Skills:

- **Front-End:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Daisy UI, Framer Motion, TanStack Query
- **Back-End:** Node.js, Express.js, MongoDB.
- **Authentication & Tools:** Firebase, Git, GitHub, VS Code .
- **Problem Solving:** C, C++ (Solving 150+ problems).

Soft Skill: Adaptability, Team Collaboration, Problem-Solving, Communication

Projects:

1. **BookCourier** - Seamless Digital Bookstore

[Live Link](#) | [GitHub Link](#)

- Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Firebase, Stripe API.

- Features:

1. Secure Authentication: JWT-backed user authentication featuring Email/Password sign-up and one-click Google Sign-In via Firebase.
2. Role-Based Dashboards: Specialized user interfaces and private routes for standard Users, Librarians, and Administrators.
3. Real-time Data Operations: Full CRUD operations allowing authorized users to add, update, view, and delete books or order details.

2. **Heaven Furniture Mart** — Luxury Bespoke Furniture Experience

[Live Link](#) | [GitHub Link](#)

- Tech Stack: Next.js, React.js, Tailwind CSS, DaisyUI, JavaScript, HTML5.

- Features:

1. Developed a premium, conversion-focused landing page for a bespoke furniture brand using Next.js and React.js.
2. Designed a responsive, editorial-style user interface with reusable components, optimized layouts, and subtle interactive animations.
3. Implemented a structured component architecture with reusable UI elements, responsive sections, optimized image handling, and clear call-to-action flows.

3. **LuxeRetreats** - Redefining Luxury Travel

[Live Link](#) | [GitHub Link](#)

- Tech Stack: Next.js, React.js, Node.js, Express.js, Tailwind CSS, JavaScript, HTML5, Firebase, Recharts.

- Features:

1. Developed a scalable and performance-optimized luxury villa booking platform using Next.js.
2. Implemented TanStack Query to streamline server-side data management, caching, and synchronization.
3. Ensured secure authentication and robust form validation using Firebase Admin, React Hook Form, and Zod.

Education:

- **International Islamic University Chittagong.**

Session: (2025 - 2028)

B.Sc. in Computer Science and Engineering

Language:

- Bangla (Native)
- English (Conversation)
